

# THE NOTTS. HARDSHIP FUND

reg. charity  
1085259

The Notts. Hardship Fund is a registered charity which was established in 1997 to provide emergency financial support to people in Nottinghamshire affected by HIV/AIDS who are living in crisis.

In May 2011, Tagadere were very honoured to take over the administration and management of the fund, which logically compliments and enhances the wide range of voluntary support which we provide.

People with HIV come from all walks of life and can be of any age or background. Their health can vary widely over time and even with new medical treatments they can still have periods of illness.

Whatever their circumstances, there may be times when people with HIV need financial support. This is where The Notts. Hardship Fund can help. Grants are made for essential items such as food, clothing, bedding and furniture.

We rely entirely on donations from the public. All money raised goes directly to people living with HIV/AIDS in Nottinghamshire who are experiencing financial crisis.

If you wish to donate to the fund, please contact:
